TAILOR MADE

Buy just the units you need, when you need them

CUTTING-EDGE TECHNOLOGY

Low density CAT5 cable eliminates clutter

3 YEAR WARRANTY

Classnet Twist Audio

For Those Who Demand the Finest...

For those who demand the finest in interactive computer training, comes the **Classnet Twist Audio**. This new Twist Audio features all the benefits of the **Classnet Twist** original, plus high quality stereo audio capabilities.

Superior Classroom Based Training...

The **Twist Audio** features advanced interactive computer classroom functionality. It allows instructors to take full control over any student computer to help student solve a problem; broadcast a teacher or student screen to demonstrate a concept; monitor and scan student screens, and gain students' undivided attention by darkening any or all of their screens. Both Teacher and Student Units are desk-mountable and like the **Twist** original, it features low density CAT5 cabling, which eliminates cable clutter and lengthens control to 300m/1000ft.

...With Stereo & Multimedia Enhancements

The audio feature lets teachers discreetly help individual students without disrupting the entire class; directly address the entire class without outside interference; broadcast audio presentations to the entire class, and transform their classroom into a complete multimedia center with the optional multimedia unit.

A Wide Range of Educational Applications

The **Twist Audio**'s wide range of functions makes it ideal for those seeking a superior quality solution:

- Schools
- Colleges
- Universities
- Corporate training centers

Also Available

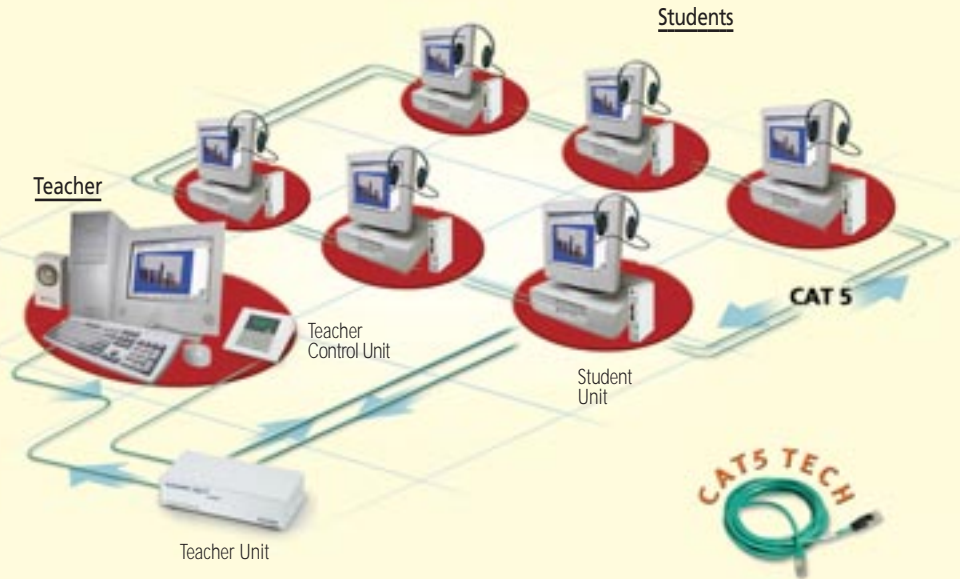

Classnet Twist Card

This version of **Classnet Twist** features a PCI Card inserted in each student computer.

Multimedia Unit

Add this accessory when you want to broadcast to your class from an external video source such as VCR/DVD.
